I think a new discussion to be started is best - thank you!

As a first year law student at Lancaster University (placement year), do you have any advice?

Although I have only been studying for a little while I have managed to attain work experience in top Law firms such as Travers Smith. I attained 3 A**s at A level, a Grade 6 Singing Exam and my Young Leaders Badge. I hope to work for Clifford Chance, in the commercial real estate sector as it's something I'm passionate about. My aim is to become a partner.

13/01/2021

Hi Alice, in my experience the interviews for Young Activist were a combination of you presenting your ideas/ any activism projects and showing your passion for your project. I also think that thinking about things creatively was important - as you may be presented with an issue you hadn't thought about before the day. But be confident and have faith in your project being important if you are applying for Young Activist!

Hi Amira! I would say there is no harm in going for it and applying, even if you're not sure. The experiences you bring can be quite diverse; if you can link it to skills and to achievements then that is great. I spoke a bit about my own person experience and how that had motivated me to go for opportunities, and you won't lose anything from applying and giving it a go!

Amira K.

13/01/2021

Ahh thank you Lizzie! Exactly what I needed to hear. Is there a couple of 'winners' or just one?

Lizzie F.

LGBT+ Undergraduate Of The Year 2020 Finalist, Clifford Chance
13/01/2021

I think it depends on the award, but usually there is one winner. I'd recommend looking on the website for the specific award you're interested in to see if it says any differently! I was a runner up for my award and I received an offer for a weeks internship so even though I didn't get top prize I was offered an award of some kind. It can change between awards though, so do take a look on the website. Hope this helps!

Amira K.

13/01/2021

Hi Olenka, I was the Runner Up last year. I think it is difficult to say as all the finalists met were incredible and had such a diverse range of achievements. I think being able to show the impact of your project if you apply for Young Activist of the Award is important, but ultimately all the finalists were making real and important social change

Annabel C.

13/01/2021

Hi Olenka!

The process includes an online application which will be reviewed by the graduate recruitment team here at Clifford Chance.

If successful at this stage you will be sent the Watson Glaser test (an online critical thinking assessment) followed by an invitation to a virtual assessment day.

At the assessment day you will have prepared a presentation on your initiative which will be presented to a panel, you will complete a case study, and have an interview. A winner will then be chosen!

Olenka A.

How can I win the LGBT+ Undergraduate of the Year Award?

I feel like my experience may not be as seemingly influential as others. How important do you think the scope of my experience is? Would it be that the winner would have the most influential impact to the LGBT+ community or is it more about scale and how I present the small amount of experience I believe I have

Hi Patrick! Following on from Thomas and Zareen, I think it can sometimes be a little daunting thinking about how your achievements seem in comparison to other people but your contribution is still valuable! I think it is worth applying for regardless of how influential your experience may seem to be, for you may have done something for a small group that didn't have a wider reach but did influence your small group hugely.

Through research I can see that Clifford Chance has won a vast amount of awards such as Chambers Africa Awards 2021, Global TMT awards and Law firm of the year in regards to Banking and Finance. Does CC offer schemes for mature students?

As this is one of the path ways that Clifford Chance offers, I guess my question relates to the schemes on offer in general as I don't seem to qualify or fit in any of the schemes on offer or even for the criteria to apply for a training contract. Considering that a high percentage of candidates are already recruited through SPARK and other schemes targeted at students in their first and penultimate years, the training contracts on offer seem somewhat restrictive towards all the other candidates. Why doesn't Clifford chance has schemes or places for mature candidates or candidates who took some time out in order to assess their true commitment to the profession.

13/01/2021

Hello Sahar, thanks for your message. We appreciate that there are limited opportunities out here at the moment. Our training contract applications which closed on December 10th were open to everyone but we were honest in our messaging about targeting specific groups. We have in the past hired many mature students/career changers so this is not something we are averse to at all. Please watch the video on this page of our website to understand more about our rationale for being more specific in our targeting and I wish you luck in any future applications.

Sahar H.
13/01/2021

Hi Aasha, thanks for the link. I have already watched this video link but I have failed to find any rationale behind the recruitment process being limited in the manner that it is. I understand that applications are open to mature students/ career changers, but it was restricted to only up to penultimate year students. For someone like myself who took a year out, would there be ever an opening?

Aasha T.
Graduate Recruitment Marketing Manager, Clifford Chance
13/01/2021

Thanks Sahar, the thing to bear in mind that we are looking for exceptional talent in all its forms and if we find an application from someone that we think exceeds the talent of the talent pool we are targeting we will always strive to take that person through. We have only a limited number of places available and we receive in excess of 5000 applications therefore it is essential for us to build in some bench-marking tools to ensure we are able to manage the process effectively. I hope this provides some more clarity. Thanks

Sahar H.
13/01/2021

Thanks Aasha. I understand that as recruiters you need to find a way to funnel applications. However for me, I feel that I've been funnelled out altogether without even being given a chance.

Aasha T.
Graduate Recruitment Marketing Manager, Clifford Chance
13/01/2021

I can understand that Sahar but you can still apply if you feel that you have a strong enough application. I appreciate it is harder right now but there are still many routes in to the legal profession that are out there for you to consider.

What did you find most rewarding about going for UG of the Year?

General question asked by **Elia C.** | 5 replies

Thomas M.

13/01/2021

The most rewarding element of the award for me was the connections and support I received in being out spoken about inclusion. It was great to have a team behind you.

Danielle W.

Law Student, University Of Oxford

13/01/2021

Hi Elia, for me I think more than anything it gave me confidence that my project (TABOU Disability Magazine) was important and necessary. It made me realise that other people saw the importance of my project. On top of this meeting the other finalists at the assessment centre was a great opportunity to collaborate on future project and I am friends with many of the people I met today and we continue to work together and learn from each other

Zareen R.

Undergraduate Of The Year, Clifford Chance

13/01/2021

Thanks for the question Elia! For me, it was meeting the incredible finalists for the award and hearing about all of their amazing initiatives. I found it really inspiring, and a great way to find out more about the work going on in the LGBT student community.

Lizzie F.

LGBT+ Undergraduate Of The Year 2020 Finalist, Clifford Chance

13/01/2021

Hi Elia. I found the most rewarding part of going for the award was the opportunity to reflect on the work I had done. This reminded me of all the hard work I'd put in and my achievements from that work, and also made writing applications, CVs and cover letters for jobs easier too! In that way, regardless of how far you get in you can gain something from the process. It's been brilliant to make new connections as well. A lot of positives :)

Elia C.

13/01/2021

That sounds really amazing!

What types of experiences make an undergraduate of the year?

With COVID, I haven't been able to gain volunteering experience, is volunteering the primary type of experience that is looked for in an undergraduate? Are there other ways I can increase my chances of winning?
Thank you.

General question asked by **Ellis J.** | 2 replies

Danielle W.

Law Student, University Of Oxford
13/01/2021

Hi Ellis, I can only speak from my experience but when I met the other finalists they had a very diverse set of experiences and not everyone had lots of voluntary experience. For example, my main achievement was a university project about disability I ran myself rather than volunteering for a charity. I am sure that Clifford Chance understand it is difficult to find in-person volunteering during Covid. Everyone brought with them different experiences, what was important was that they were making positive social change in their communities (for the social activism award)

13/01/2021

Hi Amira, the support from Clifford Chance has been great. Due to Covid I am still waiting to partake in my work experience with their Pro-Bono department but am looking forward to doing that. I also have received lots of help with my project (TABOU Disability Magazine) and Clifford Chance continue to provide advice and support to grow the project. I don't want to go into Commercial Law but the skills I have developed from working with CC have still be really useful and I have enjoyed the experience.

Have a great day, bye!

If you could give 3 pieces of advice to your 17 year old self what would it be?

General question asked by **Khadim T.** | 3 replies

Lizzie F.

LGBT+ Undergraduate Of The Year 2020 Finalist, Clifford Chance

I think I would encourage myself to be confident in following the education paths that I want to follow. It can be difficult finding out what you want to do when you're 17, and peer pressure can be difficult to navigate too! So pushing yourself to be confident in what you want to do, and also trying out plenty of new things is always great! It's a good time to try out new things and take advantage of opportunities as they arise. :)

My main piece of advice would be to remain open to all opportunities. I started by pursuing a Management degree and now I'm studying Law.
